December 14, 2024

City Council
City of Gustavus, Alaska

I took this photo of seven vehicles parked by folks who were hiking on DeBoer lands on the afternoon of December 14. Just after I took the photo, another vehicle arrived. This illustrates the popularity of hiking on the DeBoer lands and the importance of public access to these lands.

Please be reminded that lacking a separated path, walking along Gustavus's main roads is inherently dangerous, especially in icy conditions.
