Re: Funding for Conservation Lands Leasing Project

As members of Friends of Glacier Bay (FOGB) and George as a FOGB board member, we would like to thank the Endowment Fund committee for approving FOGB's request of funds for the Greg Streveler Science Symposium.

We also strongly support the Conservation Lands Leasing Project. George and I have enjoyed the beach meadows for the many years we've lived in Gustavus—hiking, berry picking, spruce root gathering and enjoying the special beauty of the place.

Because of the urgent time sensitivity to fully fund this project, we support allocating any portion of the FOGB symposium grant monies that would be needed to enable this project to proceed.

Thank you very much to the Council and the Committee for considering our request and supporting this project.

Sincerely,

George and Lynne Jensen
