

Dear City Council

12-16-21

I am writing about the beach and want my letter read by city clerk so it will be on record, as we just found out about this.

~~I~~ I have a few things to say:

We are not in favor of this, of giving our money to other groups who are not from here, to buy private land to lock it up for future groups. That money was for and to help us commercial fisher from the park service for kicking us

2nd

Please rethink what you are doing. I come from a family of commercial fishermen, and we think this is wrong. The city should not be pushing and helping others not from here to buy private lands to lock up. We do have over 3.4 million acres of park land around us. We have a postage stamp of redev. land to use, and even that is limited to us

Enough is enough. Please think about us locals who live here, all of us, just not the few.

3[#]

My family has been here since 1914 1/2 as Glen Parker would say.

My dad, Bill White is the oldest and longest person to live here he's almost 91 years old, and commerial fish also, and he says NO WAY. And why? The city needs to stay out of land deals with private lands —

Thank you

Sharon Wagners
