Subject: Request Land and other Committees have virtual and/or record meetings
Date: Saturday, December 14, 2024 14:58:57

Hi,

I'm a huge fan of virtually attending meetings or listening to the meeting's recording. I was caught unaware with the Conservation Lands Advisory Committee current focus as I won't attend meetings in person at this point. Even looking at the minutes is not helpful in learning how the group got to their current taskings. I request all future meetings to at least be recorded, but preferably be recorded while offering a virtual meeting option.

Thanks, Whitney Rapp
